

# KANHAIYA KHANSARE

## QA TEST ENGINEER

### PROFILE

Detail-oriented Quality Assurance professional with over 3+ years of hands-on experience in software testing and quality assurance methodologies. Proven track record of ensuring the quality and reliability of software products through comprehensive testing procedures and meticulous attention to detail. Proficient in test planning, test case design, execution, defect tracking, and regression testing. Skilled in using various testing tools and methodologies to identify and resolve defects efficiently. Strong communication and collaboration abilities, adept at working closely with cross-functional teams to deliver high-quality products within tight deadlines. Committed to continuous learning and staying updated with the latest QA trends and technologies to drive process improvements and enhance product quality.

### WORK EXPERIENCE

#### Sate Development

OCT 2021- PRESENT

##### Quality Assurance

- Collaborated with cross-functional teams to develop comprehensive test plans and test cases for web and mobile applications.
- This experience has equipped me with a strong foundation in manual testing methodologies, and a keen analytical mindset.
- Conducted regression testing to identify and resolve issues introduced during development.
- Utilized Jira for defect tracking, reporting, and maintaining detailed documentation.
- Experience in conducting regression tests to ensure the stability of software after changes.
- Identified and categorized gaps in software functionality, performance, and alignment with industry standards.
- Analysed and documented test results, providing valuable insights to the development team and improving overall software quality.

#### Adnac Business Solutions

SEPT 2018-AUG 2019

##### Software Tester

- Executed test plans and test cases for various software applications, providing valuable feedback to improve software quality.
- Collaborated with the development team to reproduce and troubleshoot reported issues, facilitating their resolution.
- Participated in the design and execution of performance testing to assess system scalability and responsiveness.
- Documented and communicated test results, including defect reports, test progress, and overall project status.
