PROFESSIONAL EXPERIENCE

Sate Development

Quality Assurance | OCT-2021 - Present

- Collaborated with cross-functional teams to develop detailed test plans and test cases for web and mobile applications.
- Performed both manual and automated testing, ensuring the stability and functionality of software following development updates and changes.
- Utilized Jira and Excel for defect tracking, reporting, and maintaining detailed documentation, ensuring seamless communication between development and QA teams.
- Selenium for automated testing to enhance efficiency and coverage.
- Identified and categorized gaps in software functionality, performance, and adherence to standards.
- Ensured high-quality releases by thoroughly analyzing and documenting test results.

Adnac Business Solutions

Software Tester | Sept 2018-Aug 2019

- Executed detailed test plans and cases using Selenium, leveraging basic automation skills to significantly improve software quality.
- Collaborated closely with development teams to effectively troubleshoot and resolve issues.
- Designed and conducted performance tests to thoroughly evaluate and enhance system scalability and responsiveness.
- Thoroughly documented and communicated test results, defect reports, and project status to ensure clear understanding and prompt action.
- Utilized basic Selenium skills to streamline testing processes and enhance efficiency during 1 year of hands-on experience.
